PROFILE

Software Engineering student at FAST-NUCES with hands-on experience in **full-stack development and AI-based applications**. Skilled in building scalable systems including NLP-powered chatbots and intelligent resume matching platforms. Passionate about developing real-world solutions using modern technologies like **Python, React, and machine learning**.

SKILLS

Programming Skills:

C, C++, Java, JavaScript, Python

Backend:

Node.js, Express.js, Flask

AI / Data

NumPy, Pandas, Scikit-learn, NLP, BERT

Frontend:

HTML, CSS, React.js

Databases:

PostgreSQL, MongoDB, SQL Server

Tools:

Git, GitHub, VS Code

PROJECTS

Zikr AI — Islamic NLP Chatbot

- Developed an AI-powered chatbot using **Retrieval-Augmented Generation (RAG)** to answer Islamic queries
- Implemented **FAISS + sentence-transformers** for semantic search with hybrid retrieval (TF-IDF + keyword fusion)
- Designed dynamic query weighting to improve answer relevance and accuracy
- Built Flask-based API with an interactive frontend (dark mode, readability controls, source transparency)
- Enabled explainable AI responses by showing retrieved sources and context chunks
- Tech: Python, Flask, FAISS, sentence-transformers, NLP, JavaScript
- Source code available on GitHub

AI Resume–Job Description Matcher

- Developed an NLP-based system to match resumes with job descriptions
- Implemented semantic similarity using **BERT / NLP techniques**
- Improved matching accuracy compared to keyword-based approaches
- Tech: Python, Flask, NLP
- Source code available on GitHub

ResQ Disaster Management System

- Developed a full-stack platform connecting donors, victims, and volunteers during disasters
- Led a team of 6, improving assistance response time by **30%**
- Achieved **85% matching accuracy** using optimized data handling
- Tech: React.js, Node.js, Express.js, MongoDB

Warehouse Management System

- Built a web-based inventory system for real-time stock and supplier management
- Improved inventory update efficiency by **40%**
- Designed scalable database structure for optimized performance
- Tech: React.js, Node.js, Express.js, PostgreSQL

PROFESSIONAL EXPERIENCE

Front End Developer

Developers Hub Corporation

12/2025 – 01/2026

- Developed responsive web interfaces using React, HTML, CSS, and JavaScript
- Improved page load performance by **25%**

Team Lead (Academic Project)

FAST NUCES

02/2025 – 05/2025

- Led a team of 6 to design and develop a disaster management system
- Improved system efficiency and response time by **30%**
- Managed task distribution and coordinated development workflow

EDUCATION

BS Software Engineering

FAST-NUCES, Lahore

08/2023 – 06/2027

Intermediate in Computer Science (ICS)

Punjab College, Lahore

11/2021 – 05/2023

CERTIFICATES

Java for Android

Vanderbilt University, Coursera,
Completed: July 2025

Programming with JavaScript

Meta, Coursera, Completed: November
2025
